The ESL Excellence Institute is a research based, online English and Spanish as Second Languages service provider. We are teaching English as a second language to non-English speaking students and teaching Spanish to English speaking populations.

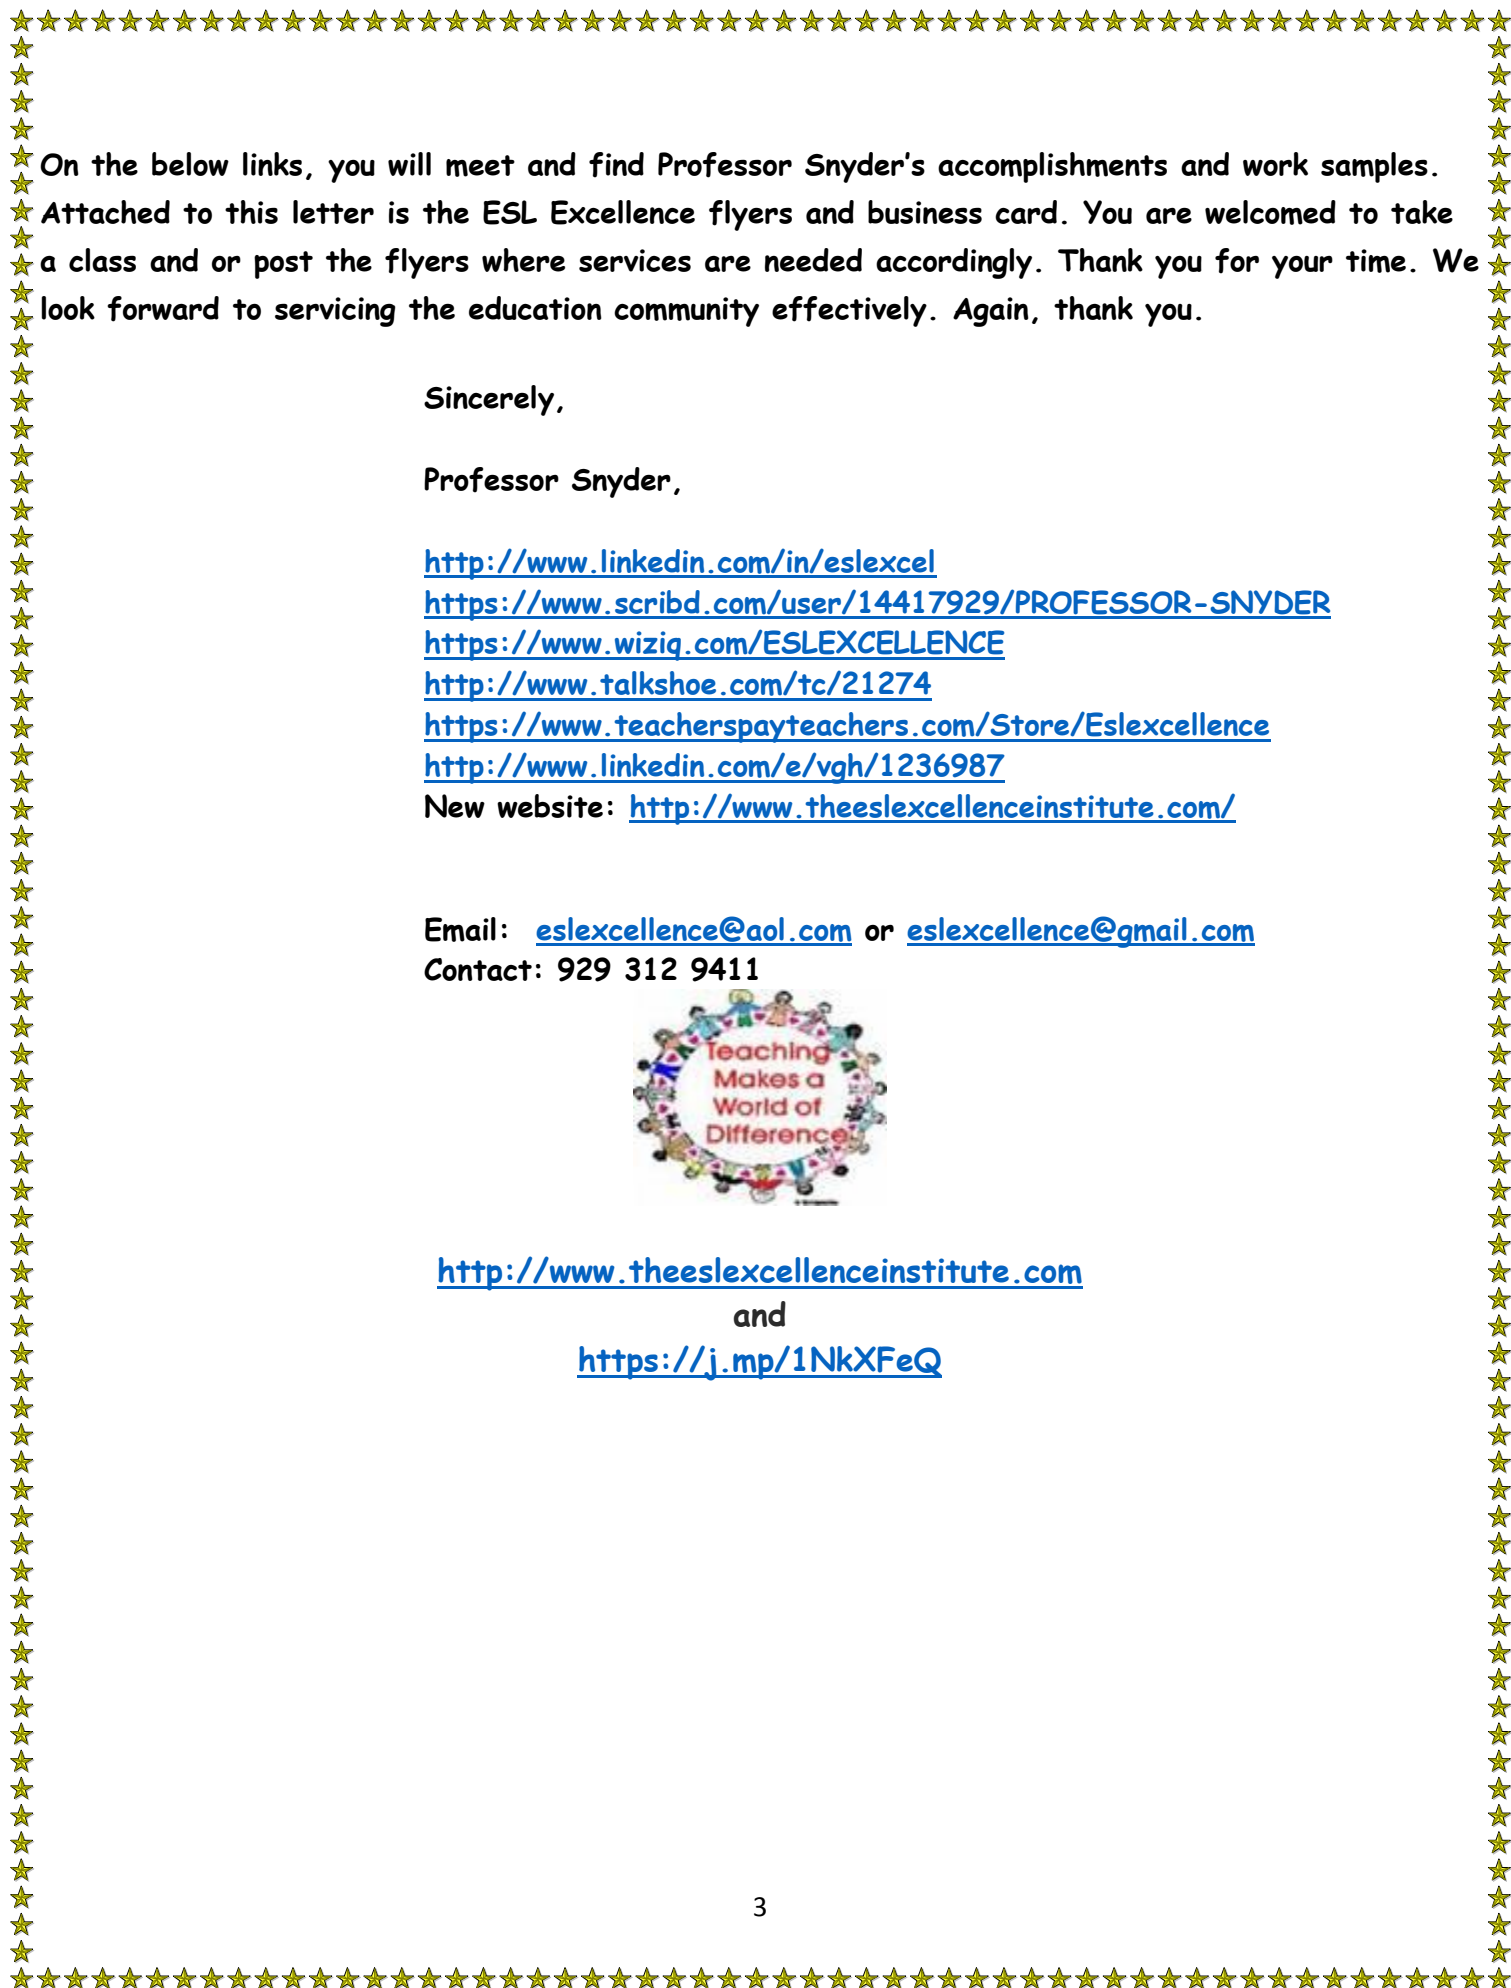

The ESL Excellence Institute is a private entity. However, we welcome the opportunity to contract with other education programs based on the below alignments. Above all, a unique and important feature of the ESL Excellence Institute is that it is aligned with the United States Department of Education goals, specifically:

- Title I: Improving Academic Achievement SEC. 1001
- Title IIId: Enhancing Education Through Technology
- Title III: Language Instruction for Limited English Proficient and Immigrant Students SEC. 3102
- Title V: Innovative Programs

The ESL Excellence Institute has been designed primarily for the limited English proficient student who is educated in his or her native language and simply seeks to transfer his or her expertise to the English language. The targeted audience includes doctors, lawyers, accountants, teachers, college, high school and or junior high school students.

The Spanish as a second language courses have been added to accommodate the many people seeking [basic Spanish](#) skills. A special [Spanish for Educators course](#) has been designed for school personnel. Please click the Spanish course pictures on the left of the website for information on the Spanish courses.

The classes are one on one, group based and or customized. The students decide. The instructional sessions are 50 minutes or longer. The ESL Excellence Institute educators hold Master's degrees in TESOL education as well as NYS Teaching and education administration licenses. We are prepared to teach the literate and the non-literate equally.

On the below links, you will meet and find Professor Snyder's accomplishments and work samples. Attached to this letter is the ESL Excellence flyers and business card. You are welcomed to take a class and or post the flyers where services are needed accordingly. Thank you for your time. We look forward to servicing the education community effectively. Again, thank you.

Sincerely,

Professor Snyder,
